

Controllers: 200 pounds

Optics (lenses, mirrors): 400 pounds

Camera Sensor: 200 pounds

3D printing material: 100 pounds

Electronics (wires, USBs, LEDs etc.): 300

Consumables (test slides, capillaries, needles, gloves, tissues, lens wipes, cleaning, optics):  
1500

Software and computational resources: 500 pounds

Blood equivalent samples: 300

Exploring micro-capillary designs:500

Total: 4000 pounds
